RATEPAYERS' MEETING VERY POORLY ATTENDED

The annual meeting of the ratepayers of the Town of Blairmore and of Blairmore School District No. 623, took place at the central school house on Friday evening, and was attended by thirteen persons, five of whom constituted the school board itself, three others, including the mayor, representing the council.

Mr. J. E. Gillis was chosen chairman of the school district meeting, Mr. A. J. Kelly acting as secretary.

The financial statement and auditor's report, together with reports from the board and school inspectors, were read and approved.

Reports showed that the school had been in operation for 200 days during the year, with an average of 464 children in attendance—251 girls and 233 boys. Upwards of twenty-three thousand dollars were collected on a current levy of \$27,233.

The matter of a consolidated high and technical school for the district was given some consideration.

A vote of confidence in the present teaching staff and board of the past year was passed.

Following the adjournment of the school meeting, Messrs. Gillis and Kelly were called upon to act in similar capacities for the annual meeting of the town.

Reports read by Mr. Kelly, including the auditor's report and financial statement for the year 1929, showed the town to be in a splendid financial position, having a surplus over liabilities of around \$13,000.

Mayor Farmer briefly addressed the meeting, outlining the various works accomplished during the year and what was proposed to be undertaken during the year 1930.

Towards the close of this meeting the council met by your committee upon the splendid condition of affairs.

Comparisons were drawn with other incorporated towns in Alberta and it was found that Blairmore's general standing compared with the best. Many towns in the province were burdened with a per capita indebtedness, which in some cases amounted to upwards of \$200, while Blairmore's was only \$9.25 for the town and \$5.00 for the school, a total of \$14.25; while Blairmore's bank surplus was well able to wipe off all unaccrued debenture indebtedness.

Regret was expressed at the marked lack of interest in town and school affairs by the ratepayers.

FAMOUS BROADWAY MUSICAL COMEDY HITS IN TALKIES

Praising “The Cocoanuts” is like giving an endorsement to June sunshine. Beyond question, it represents one of the greatest accomplishments of the talking screen.

“The Cocoanuts,” which will open a three day run at the Orpheum Theatre tonight, is the first film musical comedy as such. Here is the method of musical comedy brought to the screen, all-talking, all-singing, all-dancing, all-laughing. If the lovers have a song in mind when they are in conversation, they sing it. If the chorus feels like interrupting the action with one of their dances, they skip right out. And through it all, the Marx Brothers, the world's four funniest men, the most high-powered and popular comedy team on the Broadway stage, twist a fay thread of laughter.

“The Cocoanuts” is the Marx Brothers' great stage hit which played New York at \$6.00 for one year. The music was composed for the original stage show by the king of composers, Irving Berlin. Berlin added a new theme song, “When My Dreams Come True,” for the screen presentation and Oscar Shaw and Mary Eaton, in the romantic leads, sing this tuneful melody.

The setting is the picturesque sea-

MINER KILLED AT HILLCREST

A miner named Martin Wojtyla met instant death in the mine at Hillcrest on Friday last, through a heavy fall of cap rock. The remains were laid to rest in Hillcrest cemetery on Sunday last.

Wojtyla leaves a wife and several children, residing at Peaceful Valley, Hillcrest.

MORGAN AND BEEBE RE-ELECTED BY ACCLAMATION

Nominations to fill vacancies on council and school board took place on Monday morning with the result that Messrs. W. A. Beebe and Evan Morgan were re-elected to the council by acclamation. Two vacancies were to be filled on the school board and four nominations were made as follows: W. A. Beebe and R. W. H. Pinkney (retiring members), and John North and T. J. Williams (miners' slate).

An election for school trustees will take place on Monday next.

At Coleman on Monday James Moore was elected mayor by acclamation, succeeding Mayor Burns. George Patterson, Lewis Jones and R. L. Morris were elected to the council by acclamation. Two vacancies are to be filled on the board of school trustees and five names were submitted in nomination, namely William Fraser, H. Snowden, William Lees, Sam Moore and George Dickson. A school election will take place on Monday next.

R. O. Allison has been re-elected mayor of Pincher Creek by acclamation, with F. T. Edwards, T. H. Scott and R. W. Morgan going to the council, and A. L. Freebairn and Jack Kelly to the public school board. M. P. Gottle and Harry Drew were by acclamation elected to the separate school board.

LETHBRIDGE AND BELLEVUE TIE

In the opener of the home-and-home play-offs for the right to meet Blairmore, Lethbridge and Bellevue last night played to a tie, 3-3, in one of the most exciting games of the season.

The game was handled well by Tony Vejprav, of Blairmore, who had his hands full and who meted out just penalties.

The opening period ended with the visitors two up. Bellevue secured one in the second period and two in the third. Lethbridge also secured one in the third, Bellevue making a snappy even in the last half-minute of time.

The game was witnessed by close on seven hundred fans.

The Bellevue silver band was in attendance and livened up the intermissions with splendid selections.

The second game will be played at Lethbridge on Saturday, and a large crowd of fans from this district will likely accompany the Bellevue team.

CHANGE IS A REST

With practically everybody having got to the point where he knows all there is to know about hockey, it is particularly refreshing to meet the fellow who admits candidly: “I don't know nothing about it, but I do know that.”—High River Times.

coast playground of Florida, reproduced with lavish beauty and boundless imagination. Groups of beautiful girls make up the dazzling chorus and the photography introduces many unique and surprising effects.

Laughs come so fast they are always stepping on one another's heels. “The Cocoanuts” is a laugh-shower from start to finish. It is all the distinctive Marx brand of humor, turning from the absurd to the ridiculous, from semi-sanity to complete lunacy.

The department of national defence has ordered 16 new light aircraft for use in connection with training in the Royal Canadian Air Force, at a cost of \$85,000.

Most of 7,000 women employed on the clerical staff of the British civil service voted "no" in a ballot on the question of whether women ought to retain their jobs after marriage.

Overcome by poison gas as his sons were pulling him up a 75-foot well on the farm near Raymore, Sask., Mike Grymalak fell down the shaft, and was dead when extricated later in the day.

The total cost of pensions in Ontario this year will be in the neighborhood of \$5,000,000, according to a statement made by Hon. Dr. Jamieson, chairman of the Old Age Pensions Board.

A total of 336,972 amateur radio receiving licenses were issued by the radio branch of the Department of Marine for the 1929-30 period up to the close of last year, according to figures made public. The total for the 1928-29 period was 296,926.

Formal request that the postmaster-general of Canada consider the early extension of the postal air mail service to Vancouver and other British Columbia points is contained in a resolution that has been unanimously adopted by the Vancouver city council.

Members of the Canadian Manufacturers' Association sailed from Halifax on the steamer "Lady Drake" to study the British West Indies regarding development of trade with Canada. The party will sail through the Indies as far as Demerara.

Toronto's general assessment has reached for the first time in the history of the city over one billion dollars and the population over six hundred thousand," said Assessment Commissioner W. G. Farley, in submitting his annual report to the city council.

Manitoba Fruit

Commercial Fruit Growing Now Placed On a Profitable Basis

Fruit growing on the plains of Manitoba is to be placed on a profitable basis, according to the marketing report tendered by Mrs. S. M. Loree, of Carman, Manitoba, at the annual convention of the United Farmers of Manitoba, recently. Prospective fruit growers will be afforded accurate statistics on the yields and hardiness of crops. Demonstration orchards in various parts of the province were established some time ago, said Mrs. Loree, but the reorganization work of the coming spring is expected to yield definite results. Apples, plums, strawberries, raspberries and currants are now produced commercially by about a dozen growers.

National Research Laboratories Work on the new Canadian Government National Research Laboratories to be built in Ottawa, is about to start. The contract for the building has been let for \$2,774,000 and the work is to be completed in 14 months.

Important Factor In
Airplane of Future

Manufacturers Turning Their Attention To Building Safer Machines

Much is expected of what has been popularly described as a "fool proof" airplane that has come into existence with an award of a prize of \$100,000 following an exhaustive series of tests at Mitchel Field, outside New York City. The conclusion of the tests and the awarding of the prize is held to mark another forward step of great importance in aviation. Quantity production of high-speed machines was the natural consequence of the solo flight of Charles Lindbergh, from New York to Paris, and it is only within a comparatively recent period that aeroplane manufacturers have turned their attention to the element of safety as an outstanding important factor in the aeroplane of the future.

There has been no divulgence of the details of the performance of the winning machine beyond the fact that it has a minimum gliding speed of 38 miles an hour. That a machine can loaf along at what is a medium road rate for a motor car indicates that amazing advances have been made in the safety of aeroplane operation. And it may be assumed that once the aeroplane is so made that its operation is approximately as safe as the motor car, people will take to the sky in much larger numbers than at present.—Regina Daily Post.

(By Anabelle Worthington)

Chic dressmaker details are smartly evident in printed sheer velvet tiered model in striking Independence blue coloring. The swathed hip with crystal buckle emphasizes the higher waistline so important in the mode. The irregular closing of collarless neck-line is unusually becoming. A buttoned applied trimming band holding jabot frill, denotes new smartness. Sleeves have darts below elbows. The circular tiers away gracefully each time wearer moves. It proves that good taste is not expensive, for here is a Paris model that you can copy exactly at the cost of the fabric, and have the added advantage of choosing a flattering colour. Design No. 3015 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. It is exquisite in plain transparent velvet in dahlia purple for afternoon and informal evenings. Black crepe satin is dignified for all-day occasions. It is very effective made of the dull surface with the lines displaying the shiny surface. Canton crepe in vintage red, army blue crepe in blue, and crepe Elzabeth in Marron Glace are outstandingly smart. Pattern price 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

A Remarkable Exhibition
Paintings By Innates Of Mental Hospitals Seen In Paris

Art or madness? Few of the visitors to the Max Bine Gallery, in Paris, were able to tell, when they looked around the walls. Many of the pictures were scarcely distinguishable from the most imaginative work of present-day artists, while others showed such removal from the ordinary laws of composition as to belong in a class by themselves.

It was an exhibition of the works of lunatics, inmates of various insane asylums. Some of the exhibitors are classed as only mildly insane, while others at times reach the violent state and have to be put in strait-jackets. Their art is a pastime with them, and their mental state is not due to their art.

It was one of the most extraordinary exhibitions ever held here. It was called "Artistic manifestations of the brain-sick," and was organized by Dr. A. Marie, alienist, the Marquis de Ladre-Froloin and M. E. Mac. Artists and art lovers took a keen interest in studying the works.

The exhibition was intensely morbid, and what manifestations of mania and art were not made by the artists themselves, the organizers supplied in the form of photographs and old engravings showing Bedlam at its worst, including German and other European mad houses and Middle Age torture methods once applied against the insane.

One of the most fascinating works of art, as shown by the catalogue, was withdrawn from the exhibition at the last moment.

It was an imaginative work of a three-toed mammal in a primeval forest swarming with life. Under the drawing the artist, now sane and holding an important position in public life, had written: "Where was I?—On what planet?"

Recipes For This Week

(By Betty Barclay)

ORANGE OMELET
(Serves 4-6 Persons)

- 6 eggs.
- 2 tablespoons powdered sugar.
- 1 teaspoon salt.
- 1 tablespoon cornstarch.
- 2 teaspoons lemon juice.
- 1/2 cup orange juice.

Sliced oranges for garnishing.

Extra powdered sugar.

Separate egg yolks from whites. Mix together the sugar, salt, cornstarch, lemon and orange juice. Beat the egg yolks light and add this mixture to them. Beat the egg whites stiff and dry. Fold in the first mixture and turn into a well-oiled omelet pan. When done garnish with the sliced oranges sprinkled with the powdered sugar and serve.

CABBAGE STEWED BROWN

Stew one chopped onion in one spoonful of soup fat and cook it with half spoonful of granulated sugar until golden brown. Add one glass of half vinegar and half water, a head of white cabbage shredded like noodles, after removing the stalk and thick veins, and some salt. Stew tightly covered for several hours, stirring frequently and occasionally add some water or weak beef broth. The cabbage must be pleasantly pliant. It should taste sweet-sour and be golden brown and glossy. If desired, a little flour can be dusted over and mixed with it half hour before serving.

Saskatoon's Progress

All Evidence Points To Rapid Growth During Past Year

The City of Saskatoon made substantial progress during 1929. Its finances are in excellent shape. A larger proportion of current taxes have been paid than ever before, which includes taxes on fortified property and the tax on outstanding taxes amounting to \$800,000, which is about \$1,000,000 less than in 1925. There was an increase of about 800 pupils in the schools. The electrical output increased about 30 per cent; the sale of city owned real estate amounted to \$130,000 and passengers carried on the street railway showed a gain of 15 per cent.

Never Give Up. When things go wrong, as they sometimes will, and the road you're treading seems all uphill, when the funds are low and the debts are high, and you want to smile but you have to sigh, when care is pressing you down a bit, rest if you must, but don't you quit.

"It's so good of you, doctor, to have come this far to see my husband."

"Not at all, madam, not at all. I have a patient next door and I thought I'd kill two birds with one stone."

A Valuable Discovery

Carbon Monoxide Menace Can Be Eliminated Claims Professor Of Chemistry

The announcement from Johns Hopkins University that a means has been discovered to eliminate carbon monoxide from motor exhausts comes at a moment when the health department of nearly every large city is concentrating on this problem. Health officials of New York City recently began analyses of the air in the city's streets, seeking the carbon monoxide content, as a preliminary to some kind of a protective or remedial campaign.

Here and in other cities was the mounting record of hundreds of deaths annually, and authentic medical testimony that these accumulating poisons were fouling the air and endangering public health.

Dr. J. C. W. Fraser, Johns Hopkins professor of chemistry, discoverer of the method which makes a closed garage safe for democracy, has for many years been known as one of America's foremost authorities in the field of catalysis, and it was by the use of a catalyst that he learned how to make carbon monoxide behave. A catalyst, the chemists explain, is a manager and introducer which brings together aloof elements.

Carbon monoxide, issuing from a motor exhaust and occasionally killing somebody, needs just a touch of oxygen to become as harmless as a church warden. This oxygen was hidden in the air, but wasn't even on speaking terms with carbon monoxide.

Dr. Fraser's catalyst lured an atom of oxygen from the air, teamed it up with the carbon monoxide and the resulting carbon dioxide was safe for breathing. One may close the garage doors, turn on the engine, go to sleep under the car and live to tell the tale.

The catalyst—and Dr. Fraser does not tell what it is—is like the old-time bartender who never took a drink. It sets up new chemical equations, but never takes any part in them.

Suggests Out-Door Museum

Would Be Attraction In Western Canada To Tourists

An out-door museum extending along the right-of-way of railway lines in Western Canada, in which concrete casts of the skeletons of dinosaurs, mammoths and mastodons would stand, has been suggested by a member of the National Museum staff, Ottawa. The creation of such an out-door museum would serve as a monument to strange beasts which roamed parts of Canada millions of years ago, the official thinks and would, besides, be unique as an attraction to tourists travelling the railways.

SUNDAY SCHOOL LESSON
FEBRUARY 9

WARNING AND PROMISES

Golden Text: "Every tree that bringeth not forth good fruit is hewn down, and cast into the fire." Matthew 7:19.

Lesson: Matthew 7:1-29.

Devotional Reading: Proverbs 2:1-8.

Explanations and Comments

The Golden Rule, verse 12—All things therefore whatsoever ye would that men should do unto you, even so do ye also unto them. The context shows the meaning of the "therefore" since God is so good to us, we must be good to others. "With these words Jesus closes up the teaching of these chapters," said Martin Luther, "and ties them all up in a little bundle." For this is the law and the prophets—two collections into which the Jewish writings were divided. "Perhaps to a certain extent this was a current phrase, equalled all that was necessary; but, no doubt, seriously meant; therefore it may help us to understand the statement in verse 17 'I came not to destroy, but to fulfil.' The Golden Rule was Law and Prophets only in an ideal sense, and in the same sense only was Christ a Fulfiller."

Distinguishing False From True Leaders, verses 15-23—Beware of false prophets, warned the Master. They come to you in sheep's clothing, disguised as honest teachers, but inwardly they are ravening wolves, devouring the souls of men. The lamb or sheep was the symbol of innocence or harmlessness; the wolf, of all sorts of evil. "It was a time of religious excitement; the force of custom broke down; the deep fountains of the soul were bubbling forth; witness the crowds who followed John and Jesus, and the constant saying about the Kingdom of Heaven suffering violence (Matt. 11:12). Such times call forth true leaders, but also spurious ones, in the name of religion, who are ready to religious sympathy with prevalent sins, but bent on utilizing them for their own advantage in gain or influence, men of the Judas type.—A. B. Bruce.

How shall the imposters be recognized? By their fruits, said Jesus. Character is revealed by conduct.

Thousands Pay Radio License

Prairie Provinces Are Well Up In Number Of Owners

For the first time since radio broadcasting commenced, more than 500,000 owners of receiving sets in Canada have paid the annual license fee of \$1 this year. Of these just half are located in Ontario and over 40,000 are in Toronto. Not all the people who own radio sets pay the dollar, in fact, it is known thousands do not pay the tax. By provinces the number of licensed receiving sets is now as follows: Ontario, 146,662; Quebec, 49,780; Prince Edward Island, 509; Nova Scotia, 5,593; New Brunswick, 6,141; Manitoba, 18,725; Saskatchewan, 22,467; Alberta, 14,332; British Columbia, 25,981.

Use Minard's for Neuralgia.

The letters of the English alphabet are about 2,500 years old. They have developed gradually from ancient picture signs like the Egyptian hieroglyphics.

Shark's teeth are used for money in some of the Pacific Islands; while in China they are mounted in gold to form attractive ornaments.

OPEN SORES
HEAL IN QUICKEST TIME KNOWN

"I have used Milburn's for months. It has healed my open sores, ulcers, chapped lips, cracked heels, and all sorts of skin troubles. It is a real skin tonic, and it is the only one I have found that does so much good."

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Feb. 6, 1930

FILM FACTS

Charles (Buddy) Rogers and Nancy Carroll are here seen and heard together for the second time in an all-talking picture. Their first was "Close Harmony." Each has built up a tremendous personal following. Each has versatility of acting powers and each has great eye and ear attractiveness.

The story of "Illusion" is known to thousands, probably millions in America. Those who read the story will want to see and hear the picturized version. It is a natural inclination of all readers.

The original story, by Arthur Train, one of America's foremost novelists, first in serial form in "The Ladies Home Journal" beginning January, 1923. The novel was then published in book form by Charles Scribner's Sons, 597 Fifth Ave., New York. Book-stores are pushing the book. It is classed as a big seller.

It is a story of contrasts, the world of society contrasted with the world of troupers, the stage. Both are pictured in an amazingly dramatic manner. Rogers is the circus-reared magician who tries to make good as a favorite of society, but who learns that his loyalty belongs with the people of his youth—show people.

Nancy Carroll is the delectable vivacious entertainer who sees her chances of romance with Buddy go glimmering, apparently, when he plunges into the gay life of the wealthy.

Nancy and Buddy sing and dance songs—"Levee Love," a Negro spiritual type of song; "Illusion," the main number of the film, and "Revolutionary Rhythm," a hot strut number which gets a special treatment in a night club sequence with Lillian Roth and a chorus of handpicked beauties doing it the hot-hip way. At the Orpheum, Monday, Tuesday and Wednesday.

DYNAMIC!

--in beauty -- performance -- value

THE NEW
ERSKINE

The New Erskine is big, fast, powerful—dynamic by every measure. Its 114 inch wheelbase is low-slung, with lavish legroom. Its 70-horse power engine, with new full-power muffler, provides more power per pound than any other car under \$1500. It embodies such advanced features as Duo-Servo 4-wheel brakes, hydraulic shock absorbers, self-adjusting spring shackles, rubber engine mountings, thermally controlled cooling, and many more.

LOCAL ODDFELLOWS
INSTALL OFFICERS

At the regular meeting of Blairmore Lodge No. 68, I.O.O.F., on Tuesday night, the officers for the ensuing term were duly installed by District Deputy Grand Master James Miller, of Pincher Creek, assisted by a number of past grand masters of the local lodge.

The new officers are:

Junior Past Grand—Wm. Oliver.
Noble Grand—Wm. Patterson.
Vice-Grand—G. Patterson.
Rec. Secretary—A. Tiberg.
Fin. Secretary—Alfred McKay.
Treasurer—J. Montalbetti.
Chaplain—Alex. McKay.
Warden—Tom McKay.
Conductor—Jack Patterson.
Inside Guard—A. Decoux.
R.S.N.G.—P. Barattelli.
L.S.N.G.—W. J. Bartlett.
R.S.V.G.—E. McEwen.

The officers of Bellevue Lodge were installed by the district deputy on Monday night.

EASTERN STAR
OFFICERS INSTALLED

The officers of Vimy Chapter, O.E.S., were installed by Mrs. Rees, acting as installing matron, assisted by Mrs. Davis as marshal. The new officers are as follows:

Worthy Matron—Mrs. Jean Ferguson.
Worthy Patron—Walter Lord.
Associate Matron—Mrs. K. Murray.
Associate Patron—Arthur E. Ferguson.
Conductress—Mrs. M. Granger.
Assistant Conductress—Mrs. E. J. Moore.
Secretary—W. H. Campbell, Jr.
Treasurer—Mrs. K. Turner.
Chaplin—Mrs. A. Drake.
Marshal—Mrs. E. Comfort.
Organist—Mrs. M. MacPherson.
Aid—Mrs. A. L. M. Donkin.
Ruth—Mrs. M. Campbell.
Ethere—Mrs. B. Campbell.
Martha—Mrs. M. Johnson.
Electa—Mrs. L. Hewitt.
Wardens—Mrs. D. J. Christopher.
Senthel—R. W. H. Pinkney.

Meant Nothing to Him
Chief of Police: "Did you give him the third degree?"
Sergeant: "Yes, we browbeat and battered him with every question we could think of."
Chief: "And what did he do?"
Sergeant: "Why, he just dozed off and kept repeating: 'Yes, dear; yes, dear, you are perfectly right.'"

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, February 9th, the Pastor in charge—

11 a.m.—SENIOR SCHOOL, for Young People over 12.

2 p.m.—JUNIOR SCHOOL, for Children under 12.

7.30 p.m.—PUBLIC WORSHIP.

Subject: "The Third Commandment—Thou shalt not take the name of the Lord thy God in vain." This is the third sermon in the series, "The Ten Commandments in the Year 1930." Such a series of sermons affords us the opportunity to face frankly and earnestly some of the most fundamental moral problems facing this day and generation.

HILLCREST UNITED CHURCH
Pastor: Rev. J. W. Smith, B.D.

Services every Sunday—

11 a.m.—Junior School, for boys and girls under 12 years.

2 p.m.—Senior School, for young people over 12 years.

3 p.m.—Public Worship.

ST. LUKE'S, BLAIRMORE

Service Sunday next—Holy Communion at 11.15 a.m.

Services are held on the first and third Sundays in the evening, and on the second and fourth Sundays in the morning.

Sunday school at 10.15 a.m.

Those who wish to be confirmed this year, please hand in their names to the rector this month.

—A. D. CURRIE, Rector.

QUEBEC BARS JUVENILES—
CRIME INCREASES 60%

CHESTERTON, Ont., Jan. 28.—So-called reformers, who blame motion pictures for increases in juvenile crime, have a real task cut out for them in trying to explain the fact that in the province of Quebec, which is the only province in the Dominion that prohibits children of 16 years or under from attending film theatres without parents or guardians, there has been an increase of 60 per cent in crimes by children in the past year. And the law against minors attending shows has been in force for exactly that period of time!

At the annual meeting of the South Alberta Auxiliary of the British and Foreign Bible Society, held at Calgary on Tuesday evening, Rev. W. T. Young was elected president.

The Blairmore Bearcats staged another victory over High River at the local arena on Monday night, the game ending in the locals' favor by a score of three to nil. Blairmore notched a goal in each period. This game was in return for a game played on High River ice early in the season, which was also won by Blairmore 6 to 1. High River has been going big guns this season, having played excellently against Calgary, Drumheller and Turner Valley. The game on Monday night was deserving of a record house, but only about four hundred fans were on hand to enjoy it.

Two substitutes for gasoline as a motor fuel are being studied: one in Switzerland and one by the United States Bureau of Mines. The Swiss fuel is called gasoline and is manufactured from wood charcoal. This would be used chiefly for the operation of trucks. It is said to show an economy of 70 per cent. in operation. The latter fuel is gasoline made from shale oil. Refined shale oil gasoline under test has developed four per cent electrical horsepower more than the ordinary gasoline.

Robin Hood
FLOUR

Preferred by Discriminating Housewives

Strawberries, fresh from the T-Bone ranch, were on the local market on Tuesday.

When it got to 52 below zero at Blairmore the other day, Editor Bartlett of the Enterprise, got out his winter underwear and sizing them up affectionately, said: "If it gets much colder I'll put 'em on."—Kimberley Press.

John Joseph Dugan, prominent farmer of the Pincher district, died at Calgary on Saturday morning last, following a brief illness. He was forty-three years of age and is survived by his wife, three sons and one daughter.

Mrs. Eva Mae Hunter, school teacher at Millen, was fined ten dollars and costs or 30 days in jail on a charge of striking and beating a pupil. The boy was so beaten that he suffered from contusions, abrasions and discolorations on his arms, back and chest.

Mrs. Caroline Evema Campbell, aged 82, widow of the late Lieut. Colonel James Campbell, 71st Highland Infantry, died at Macleod on Tuesday of last week. Mrs. Campbell was a native of Jamaica, British West Indies. The late W. M. Campbell, K.C., was a son.

The hallion and confetti dance, given by the young ladies' society of Coleman in the Polish hall on Monday night was a great success in every way, seventy dollars being cleared over expenses. The Alternatt orchestra had a complete new programme of the latest dance hits.

An exchange remarks that trappers would be well advised to hold their furs as at the present time the market is very weak. At a recent sale held in Montreal, there were 6,866 silver foxes and 6,868 wolf placed on sale, bringing the market low for high-class furs. New York prices on mink are down twenty per cent, with other furs in a similar state.

A censorship of correspondence reaching the daily press from this district would be timely. The past has buried itself and only the good should be recalled to mind from time to time, and in a report of a recent fire in Blairmore, contained in the Lethbridge Herald and other dailies, there was no necessity of reminding the public of incidents that marred our former history.

Sir Arthur Canon Doyle, creator of Sherlock Holmes, is ill with heart trouble in London, England. Spiritualists of Australia, Great Britain and the United States are offering special prayers for his recovery.

A Little Argument
Magistrate: "Now, sir, please tell the court what passed between you and your wife during the quarrel?"
Defendant: "An electric iron, a rolling pin, six plates and a kettle."

WOULD you pay approximately two per cent additional interest on your mortgage to secure a Free Deed of your farm for your wife or family at your death?

Two per cent on a mortgage of \$5,000 is \$100 a year; on \$10,000, \$200 a year.

For so small a sum you can bequeath your farm free of encumbrance to your wife, or your son, at your death.

Is your farm worth it? Is your wife worth it? Is your son worth it?

Consult a Sun Life representative about a mortgage policy. It will pay off the mortgage and keep your farm in the family.

INSTITUTE PUBLIC LIBRARY

We acknowledge donations of books from the following persons: twenty volumes, Sergeant Jones; one volume, Noel Peters; two volumes, Elsie Knapman; six volumes, Fred Knapman; and seven volumes, Mrs. Upham. The fullest use of the library is offered to the citizens of the town on the nominal membership fee of \$1.00 a year. Library hours: Tuesdays and Saturdays from 7 to 9 p.m.

The work of extending the service line of the East Kootenay Power Company to connect with that of the Calgary Power Company at Pincher was completed last week end, and the men employed, together with their equipment, moved west to Cranbrook on Wednesday. The official ceremony of connecting the two lines took place at Pincher on Friday afternoon last.

The governments of the three western provinces announce that farmers' interests in the pool game will be guaranteed against loss. Can anyone living show us why the same treatment should not be meted out by these governments to anyone interested in any other legitimate industry?

On Saturday afternoon, January 26th, the members of Crow's Nest Chapter, I.O.D.E., held a most successful Robbie Burns' tea and sale of home cooking at the home of Mrs. F. M. Pinkney, Greenhill Apartments. Little Betty Simister won the cake and was quite proud of her achievement.

THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1914) — June 5.—J. E. Smith has resigned the presidency of District 18, United Mine Workers of America.

Mr. J. Menard, former business manager with the West Canadian Collieries, has resigned and severed connection with the company.

A. E. Stillman, an official of the Rocky Mountain Cement Co., was a victim of the Empress of Ireland disaster last week. Complete figures furnished by the C.P.R. are as follows: 452 saved, 1024 lost.

Rev. W. H. Irwin, for the past two or three years pastor of the Methodist church at Bellevue, has accepted a call to Athabasca.

Down in Alberta they say: "All roads lead to Ponoka." The oil route now being open will no doubt be added to the list.—George Meikle, Michel.

A big school of suckers are running wild in Alberta, and the oil stock sharks are getting fatter every day. The fool and his money are soon divorced. Seventeen years ago in Toronto the suckers grabbed Rossland wild-cat stocks in the same way, and they have not yet quit cursing B.C.—Greenwood Lodge.

The Johnson Oil Syndicate was formed at Bellevue on Monday, with the following officers: C. W. Johnson, president; S. T. Humble, vice-president; J. H. Robertson, secretary-treasurer. The company's oil claims are in the vicinity of Mud Lake.

Born, on Tuesday morning, to Mr. and Mrs. H. E. Lyon, a son.

Benedicts have no army in Blairmore—not sufficient volunteers!

As to oil, one Blairmore lady has a claim—one Foot from Pincher Creek.

M. E. Schofield, of our bank staff, who for some weeks has been suffering from an advanced attack of federalitis, is able to be around today.

E. Maxwell Brown suffered considerable from gumb-oil last week and Dr. Mackay started drilling operations on Friday. It is difficult to operate on a pet-rol-um.

A Damn-Good wedding was solemnized at the Evangelical parsonage at Listowell, England, last week, when Lena, daughter of Mr. and Mrs. Will B. Good, became the wife of I. B. Damm.

Tourist (in Blairmore): "Is this a good healthy place to settle in?" Hotelkeeper: "It is, stranger. Fact is, ye can't get away from here unless you do settle."

Sunday School Teacher: "My word! Doesn't that little boy swear terribly?"

Back Slider: "Yes'm, he sure do. He knows the words, but he don't put no expression in them."

After the locomotive had smashed a flapper at the crossing, a flapper rose from the wreckage, uninjured and powdered her nose. The engineer and others gathered around.

"Why in the world didn't you stop when you saw the train coming?" asked the engineer.

The flapper was indignant. "I sounded my horn before you blew your whistle," she said defiantly.

An explosion occurred during a bean supper at Calgary last week, and police detectives announce they have a clue.

Rumor is current to the effect that Baptiste Berandi and Nicholas Vergein are peered because their names were not submitted as candidates for school trustees.

Hon. Peter C. Larkin, Canada's high commissioner in London since 1922, died on Monday, following but following a brief illness. He was forty-three years of age and is survived by his wife, three sons and one daughter.

The headings of an article in one of our exchanges reads: "Short Skirts Will Stick." That editor was probably an eye witness to a flimsy attired flapper who paraded up main street in Blairmore on a hot day last week, all in a sweat.

A racing car, capable of developing 4,000 horsepower and said to be able to do 300 miles an hour, is being built at Wolverhampton, England, and will attempt to set a new speed record at Daytona Beach, in Florida, this year. The car has 24 cylinders.

LODGE DIRECTORY
Blairmore Lodge No. 68,
I.O.O.F.
Meets First and Third Tuesdays at 8 p.m., in the Oddfellows' Hall.
Officers for the ensuing term: W. Patterson, V.G.; G. Patterson, V.G.; A. Tiberg, Recording Secretary.

Crowview Rebekah Lodge
No. 66, I.O.O.F.
Meets First and Third Thursdays at 8 p.m., in the Oddfellows' Hall.
Officers for the ensuing term: Sister Simister, N.G.; Sister Barattelli, V.G.; Sister Turner, R.S.; Sister Walker, F.S.; Sister Archer, Treas.

Livingstone Lodge No. 22,
KNIGHTS OF PYTHIAS
Meets in the Castle Hall on the Second and Fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: C.C., Harry Somers; K. of R. & S. B. Semler.

BLAIRMORE LODGE NO. 15
B. P. O. ELKS
Meets Second and Fourth Tuesdays at 8 p.m., in the Elk Hall. Visitors made welcome. John A. Kerr, Exalted Ruler; J. R. McLeod, Secretary.

H. W. Wood has been re-elected president of the U.F.A. for the fifteenth term.

The man who is unable to work and smoke at the same time usually smokes.

Mr. A. Greig, manager of McLaren Lumber Company, is a business visitor to Toronto.

A large number of local folks attended the big hockey club dance in the Union hall at Hillcrest last night and all report a gay time.

As we go to press, word is received by Mr. W. Harrison from Creston, stating that Frances, young daughter of Mr. and Mrs. Joseph Handley, was dead, the result of an accident. No particulars were given. Mr. Harrison leaves for Creston tomorrow morning.

At a two-day convention held at Regina, the K.K.K. expressed satisfaction with Premier Anderson's policy on policies of school language and immigration. They also went on record as against the singing of "O Canada."

The eleven rooms of the Blairmore school had an average enrolment during 1929 of forty-four.

The Fernie Free Press states: Plans of the East Kootenay Power Company for the harnessing of the Elk river at Phillips Canyon, as revealed at Victoria, show that the development will be on a big scale, creating between 15,000 and 20,000 horsepower. A high dam to be constructed in the canyon will be one of the main features of the scheme.

The new addition to the Lundbreck hall, consisting of a splendid stage, ladies' dressing room, store room and kitchen, has been completed by the contractors, Messrs. Buchanan and Oullette. The hall, with this new addition and its magnificent hardwood floor, is now one of the finest in Southern Alberta. Many most enjoyable dances and other social affairs have been held in this hall, and it is hoped that following the conventions recently added, and with a good orchestra on the new stage, the crowds attending will make the hall more popular than ever.

CHEVROLET

Blairmore's Largest Selling Automobile

NO OTHER CAR CAN COMPARE WITH THE NEW CHEVROLET FOR COMFORT, STYLE AND ECONOMY

READ THIS:

The Chevrolet Motor Co.,
1775 Broadway,
New York City, N.Y.
Gentlemen:

You will undoubtedly be interested in the results we are getting with the new Chevrolet six-cylinder cars. Here is a table showing our cost per mile since 1926, with Chevrolet Cars:

1926—29 Chevrolet in use; cost per mile, \$4.606.
1927—39 Chevrolet in use; cost per mile, \$4.043.
1928—47 Chevrolet cars; cost per mile, \$3.045.
1929—50 Chevrolet cars; cost per mile, \$3.041.

In 1929 half of our record was made with the new six-cylinder car and the total mileage of the 80 Chevrolets was 1,267,493 miles. Included in our fleet were 38 six-cylinder Sedan Deliveries, and the average cost per mile for these cars was only \$3.638.

From this experience with your six-cylinder models we believe that we are going to get even more economical operation with the Six than we did with the Four.

Our records are taken from our travellers' expense sheets and our expenses include 50% yearly depreciation, \$100,000 liability, and \$1,000 property damage per car. These costs also include garage charges at home as well as on the road, gasoline, repairs, oil, and, in fact, everything that could be properly charged against automobile operating costs.

The report of cars used by our Chicago office is substantially similar to our own.

Yours very truly,

THE DE LAVAL SEPARATOR COMPANY,
(Sgd.) H. L. Bassett, Manager, Automobile Department.

A New Hope For The World

The five-power naval conference is in session in London, England, as this article is written. It is a momentous gathering, fraught with great possibilities for the good of all mankind. Assembled around the conference table are leading statesmen of Great Britain, the United States, France, Italy and Japan, the five greatest naval powers in the world. The British delegation also includes representatives of the self-governing Dominions and India.

The problem confronting these eminent statesmen is to find some basis of agreement whereby a step can be put to further competitive building of ships for warlike purposes, and, if possible, to provide for a substantial reduction in the number of existing ships by scrapping some now in commission and providing that there shall not be replacement of others when they become old and obsolete.

So worded, the average man would be inclined to say that it should not be a very difficult matter to reach an agreement, but the problem is by no means so simple as it seems to the layman. One country places greater reliance on huge battleships than does another country; others desire many fast cruisers of moderate tonnage, others feel their necessities call for larger cruisers, some want a great number of submarines, while others are prepared to outlaw them altogether. Great Britain is ready to abolish both submarines and the huge battleships, and rely on cruisers of moderate tonnage. The United States is agreeable to the outlawing of the submarine, but still feels the necessity of the big ship. France is opposed to abolishing submarines. And so it goes.

And there is something to be said for each contention. Great Britain has colonies and coaling stations, oil and supply depots all over the world. The moderately sized cruiser will, therefore, fit into her requirements for defence of her great shipping and commerce. But other countries, lacking such refuelling and supply depots, feel the need of larger ships, carrying greater quantities of fuel and supplies, so as not to be forced back to home ports too frequently. France is convinced that the submarine is her great arm of naval defence inasmuch as she cannot hope to compete with Britain and the United States in the building and maintenance of large battleships and cruisers.

However, the conference is a hopeful sign of the desire of the nations to lessen the burden of armaments and consequently to decrease the possibility of war. One thing is certain, and that is that the people in all countries are extremely anxious that their leaders should succeed in reaching some unanimous conclusions. They are the ones who have to bear the burden of taxation imposed for these huge armaments; it is their sons who are withdrawn from productive employment to man the navies, and undergo intensive training for possible future slaughter.

The most hopeful feature of the present conference is that it has been preceded by conferences between the nations at which efforts have been made to find common ground, to iron-out old differences, to allay old suspicions. The conference may not achieve all that might be hoped for and desired, but if it marks a further advance on the work of the Washington Conference of some years ago, much will be gained, and the way be paved for further reductions and understandings in another few years. Thus step by step will progress be made.

An indication of this better understanding has already been evidenced by the visit of Hon. Ramsey MacDonald to President Hoover, and the co-operation now existing between the two great English-speaking nations in the cause of world peace. Further evidence is supplied by the general tenor of editorial comment in the press of the two countries, by speeches of their public men, and articles in magazines and the more influential publications.

An example of this willingness to consider and appreciate the other fellow's viewpoint and position, instead of ignoring or misrepresenting them, is found in a recent issue of the Philadelphia Evening Bulletin. It states some home truths for its United States readers. To quote in part: "The salt water, I believe, is freest of all, in peace, within that jurisdiction—the British—where it was formerly in countries past least free. Britain accords the peaceful world, so far as her writ runs, complete maritime freedom and equality, even within her own ports and coastal waters. Her port charges are the same to others as to British. Foreign ships may take part in her coastwise trade.

"Her broad theory is that maritime commerce, under whatever flag it may move, holds out some hope of profit to the greatest contemporaneous seafaring peoples. No other nation is of like mind—not the Italian, not the French, not the Japanese, not the American. Our coastwise trade, for example, is reserved rigidly for vessels of American registry, and none other may ply between our home ports and those of our overseas territories."

Recognition of this broad liberty accorded to the shipping of all nations by Britain, as contrasted with the narrower policy adhered to by all other great naval powers, thus openly presented to the readers of a great United States paper, is an indication of that better and more cordial feeling towards Britain now so evident in the neighboring republic. It is because such better feelings do exist, and are growing stronger, that hopes for the success of the present naval conference are so high.

Canadian Steamships

New Canadian Government Ship Building Deal Is Rumored

The London Sunday News states that a large ship building contract for a new Canadian Government line of passenger and cargo steamers may shortly be placed in Liverpool. The newspaper stated contracts had already been invited for construction of a fleet of ships to run between Montreal and Cape Town and India.

Falling Hair

Turn to a proven hair grower—Minard's of course. Will cleanse scalp of dandruff and promote a healthy, glossy growth. Rub into scalp four times weekly.

W. N. U. 1823

More Deadly Than Cannon

Small Spoonful Of Unnamed Toxin Would Kill Million Men Is Claim

Dr. Leonard Hill, who is a director of applied physiology, National Institute of Medical Research, Hampstead, said there was a toxin that could be employed to kill millions of men, when he was contrasting the power of the recent laboratory with that of modern war machinery. "If men are as susceptible as guinea pigs to the toxin, which shall be nameless—and there is every reason to think they are—it would appear that one salt-spoonful of this toxin would suffice to kill 1,000,000 men. The toxin acts if inhaled, or if it falls on the eyes in a powder. If such a toxin were prepared and scattered from an aeroplane, what would be the use of the panoply of war?"

Lady (who has just returned to the village after her honeymoon).—"Well, John, I suppose my element was a nine days' wonder in Grant-hampstead?" "John—" "Ay, that it was, Marm. Leastways I would have been if Sam Boyle's dog hadn't gone mad the same day."

Canada's Cabinet Ministers

Oldest Is Hon. W. R. Motherwell, and Youngest Hon. C. A. Dunning

Hon. W. R. Motherwell, Minister of Agriculture, who has just celebrated his seventieth birthday, is the oldest member of the Dominion Cabinet. The youngest is Hon. C. A. Dunning, who at 45 is Minister of Finance. The others are: Postmaster—General Veniot, 68; Minister of Interior, Stewart, 61; Minister of Health, King, 57; Minister of Public Works, Elliott, 57; Prime Minister King, 55; Minister of Labor, Heenan, 54; Minister of Customs, Euler, 54; Minister of Solicitor-General, Cannon, 42; Minister of Railways, Cresser, 53; Minister of Marine, Cardin, 50; Minister of Trade and Commerce, Malcolm, 49; Minister of National Defense, Ralston, 48; Secretary of State, Rinfret, 46; Minister-General, Carson, 42; Minister of Immigration, Forke, who has just resigned, was 69. Including the last named, this makes an average of about 55 for the seventeen, a figure which for that class of men affords the vigorous age classification.

CAN YOU WITHSTAND RIGORS OF WINTER?

Or Are You Subject To The Many Ills Of This Trying Season?

The rigors of winter sap the vitality of even the strongest. Lack of exercise, overworked rooms and a restricted diet will gradually impoverish the blood and impair the health. That is why you are so susceptible to colds—why you find such difficulty in throwing them off.

To be proof against cold, flu or other winter ailments the body must be nourished by rich, red, health-giving blood. Tonic medicine must be taken to build up this rich red blood. Such a tonic is Dr. Williams' Pink Pills. Thousands recommend them as a remarkable blood-builder and winter tonic. Concerning them Mrs. Jackson Jenkins, Owen Sound, Ont., writes: "After a severe attack of flu I found myself very much run-down. I was advised to try Dr. Williams' Pink Pills and they fully restored my health and strength. I can heartily recommend these Pills to anyone whose blood is in an impoverished condition."

Start taking Dr. Williams' Pink Pills today and see how soon you feel the benefit. They are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Discover Cancer Serum

Two San Francisco Surgeons May Make Important Contribution To Medical Science

Discovery by two San Francisco surgeons of what they call a "cancer killing serum" was disclosed when it became known that medical agencies of the University of California have decided to co-operate in further experiments with the substance.

The originators, Dr. Walter Bernard Coffey, chief surgeon of the Southern Pacific Hospital, and Dr. John D. Humber, his colleague, specified that the serum was not to be regarded as a cancer cure, but asserted that it was able to kill cancerous tissues.

The serum is derived from the outcure of the adrenal glands of sheep.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, delicately cool to the skin, it always results in complexion delightfully young and lovely. Indispensable to every dainty woman. As a powder base for olive-tinted skins or as a beautifying lotion, it is unrivaled. Tones and stimulates the skin. Recommended also to soften and make the hands flawlessly white.

University Of Alberta

Debaters Win A Three To One Verdict Over Manitoba In Inter-University Contest

Piling up a conclusive argument which completely controverted that of their opponents, University of Alberta debaters recently defeated the University of Manitoba by a three-to-one verdict of the judges for the McGowan Cup.

Alberta speakers upheld the affirmative of the subject, "Resolved that total disarmament is essential to world peace." The debaters for Alberta were David Sigler and F. E. L. Priestley, and for Manitoba, Ronald M. Macdonnell and R. Gerald Riddell.

The pouch of the pelican is large enough to contain seven quarts of water.

Core throats need this Double Treatment

RUBBED on the throat, Vicks relieves in two direct ways:

(1) Its vapors, released by the body heat, are inhaled direct to the air passages; and

(2) At the same time Vicks "draws out" the soreness like an old-fashioned poultice.

Race For Supremacy In Flying Atlantic

English, American, and Canadian Concerns Are Planning Routes A race for supremacy along two air lines over the Atlantic Ocean, one via the Arctic and sub-Arctic, the other over a seadrome dotted ocean route, may be started within the next year or two, aviation officials in Canada believe.

Authorities at Ottawa see possibilities in the northern route which would make Canada eventually the skyway between civilizations of the eastern and western world.

Three different concerns, one in Canada, one in England, and one in the United States, are at present investigating the possibilities of regular transatlantic air services which would carry passengers, mail and express.

The American concern is now engaged in the construction of a full sized seadrome, a giant movable air port on stilts, which will be tested off the southeast coast of the United States, in 1930. In Canada, Warren Scholl, an industrial engineer now making his headquarters in Winnipeg, is considering a route from Winnipeg to Baker Lake, across Baffin Island to Greenland.

In England the Royal Geographic Society has announced its intention of organizing an expedition to study conditions along a proposed route which would carry aircraft across to northern Canada, down to Edmonton and then through to Vancouver.

In all three plans, expense, it is thought, will prove the main consideration. The cost of placing seadromes across the Atlantic would be enormous, while that of equipping and maintaining adequate airports in the far reaches of northern Canada, on the Greenland ice cap and through the sub-Arctic Islands would be equally or nearly as great.

Recognized as a leading specific for the destruction of worms, the "Graves' Worm Expeller" has proved a boon to suffering children everywhere. It seldom fails.

Makes Unusual Find

Trapper In British Columbia Discovers Eight Foot Miniature Driftglobe

John Sandberg, a trapper in Gold Creek district, about 50 miles southwest of Fernie, B.C., is reported to have made an unusual find while patrolling his trap line. The discovery is claimed to be an eight foot miniature driftglobe or airship in almost every detail like a large air liner. Inside the tiny cabin was a sealed glass receptacle with a note giving a name and a Toronto address which was the point of embarkation of the airship, and requesting that the party finding the tiny craft should report fully, describing the territory where it was found.

A reward of either two dollars and 50 cents, or \$250, in respect to be payable to the discoverer and Sandberg is not divulging the Toronto address until he has communicated with it.

The direct air line distance between Toronto and the point where the balloon was found is at least 1,800 miles.

Grandmother Knew—She Used Minard's.

Demolish Churches

Religious Edifices In Russia Are Torn Down To Make Way For Secular Buildings

Simony monastery, which in former days was the most important and richest in Russia, was blown up with dynamite to make room for a gigantic new Soviet workers' club and "cultural centre."

Fifty thousand workers carried away the debris; each pledging himself to remove one stone and throw it into Moscow River. This act followed the recent conversion by Communists of the famous St. Isaac's Cathedral, in Leningrad, into a huge anti-religious museum. The hundred-ton bells of the cathedral were so unwieldy that the authorities had to destroy them piecemeal in the bell-towers.

More than a score of other churches in Leningrad and Moscow are now in process of demolition and are being replaced by commercial buildings, schools and workers' clubs. In one case, a provincial church was turned into a circus, and in Tiflis, the proceeds from melted church bells were used to establish a menagerie.

Grant For Research

University Graduates To Investigate Weed Flavors In Milk

To provide for the continuance of research investigation into the problem of weed flavors in milk, the National Research Council of Canada has granted the University of British Columbia the sum of \$3,000. Miss Vivian Hudson and Duncan McKenzie, gradates of the University, have been appointed assistants under the Council's grant to continue the milk studies which were started some few months ago.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. It will convince any who doubt its power.

Good Speakers Nervous

Would Get Out Of Addressing Crowds If It Were Possible

Right Hon. Jan Christian Smuts, war hero and leading statesman, during a memorable address in Toronto, said: "I have never learned in a long political life to shake off a certain nervous trepidation when I have to face my fellow-men in mass formations. And I am not sure that the political mass formation is not more terrifying than the military formation." No doubt many other public men could tell of similar feelings. The Hon. William Patterson, one of the best-known campaign speakers in Canada, told a friend with whom he was discussing his political career, that despite his lengthy experience in addressing public gatherings, if at any meeting just before he arose, somebody had opened a door behind him he would have bolted through the portal.

Where Canada Leads

Commissioner Quotes Dominion's Favorable Trade Record

Canada now leads all nations in favorable trade balance per head of population, adding up to a record made by C. Price-Griffin, Commissioner of Natural Resources, for the Canadian National Railway.

The report says that Canada's exports amount to \$185 per capita, which is a third greater than the per capita exports of Great Britain, and nearly four times the per capita exports of the United States, and that a table recently compiled by the United States Bureau of Statistics shows that, taking a number of vital factors such as industrial production, employment, construction contracts, car loadings as a basis, the average per cent. increase in economic production in Canada is five times as great as that in the United States.

Mr. Price-Griffin's report adds that, before 1900, agriculture was the leading industry of Canada, with manufacturing two thirds as important. Today agriculture maintains a premier position, but the difference is rapidly decreasing because manufacturing has increased 900 per cent. since 1901, while agriculture has increased only 400 per cent.

Where there is a will there are a lot of disappointed relations. The sun is 700 times as big as all its earths and moons put together.

HAMILTON - ONTARIO

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

REQUEST OTTAWA TO ASSIST WITH RELIEF MEASURES

Winnipeg. — The government of Canada will be approached by a delegation from western Canada, seeking assistance in the form of relief measures. It was decided at the closing session of a two-day party representatives of cities, provinces and municipalities in the west. Among the delegates' requests will be formation of a scheme of unemployment insurance and decision by the Dominion Government to bear a share of unemployment relief expenditures.

An inter-provincial and Dominion conference should be called at the earliest possible moment for consideration of some Dominion-wide scheme of unemployment insurance, the conference decided. It was pointed out that a Dominion commission had approved a scheme, but that law officers of the Crown had advised that under the British North America Act the Dominion Government cannot inaugurate such a plan.

In the opinion of the meeting, the Dominion should bear one-third of unemployment relief costs, on the basis of agreements entered into in 1921 and 1922, and confirmed in 1924. Some delegates felt that the Dominion should divide equally the other two-thirds. The Dominion administration has indicated that their stand was based on the agreement of 1927, by which unemployment was labelled a provincial matter, but the conference held that the 1927 situation was not parallel to that now existing.

Every city from Lake Superior to the Pacific coast was represented and government delegates to the party attended from British Columbia, Saskatchewan and Manitoba. Unable to send a representative, due to the opening of the Alberta legislature, Premier J. E. Brownlee telegraphed to the conference that Alberta would support the meeting's decision. The Dominion Government was not represented, but Hon. Peter H. Hooper, Minister of Labor, stated that he would bring the conference's requests before the entire cabinet.

Prime Minister W. L. Mackenzie King has stated that the Dominion Government would be prepared to consider the unemployment question, with a view to remedial measures. He has promised that the Dominion will be administering the relief measures to cope with the problem.

Delegates will return to their respective areas and ask the bodies they represent to agree that emissaries be sent to Ottawa. The delegates will then notify Mr. Mayne, Mr. Webb, Winnipeg, of their intention, and he will set the date of the pilgrimage to the capital. Governments of the four prairie provinces, as well as of Ontario, will be requested to despatch representatives as members of the delegation.

Wheat Pool Conference In London, England

Canadian Pool Representatives Meet At Rt. Hon. J. H. Thomas, Lord Privy Seal

London, Eng. — Preliminary discussions in which the threats of the conference of Winnipeg, last week, were taken up, was heard recently between Rt. Hon. J. H. Thomas, Lord Privy Seal, and representatives of the Canadian Wheat Pool, on the question of regulation of Canadian grain exports to Britain and establishment of grain elevator in this country. A. J. McPhail, of Regina, pool president; W. A. McLeod, of Winnipeg, publicity director; and D. R. McIntyre, eastern sales manager, attended.

The meeting was in Mr. Thomas' room in the Parliament Buildings.

Extradition Not Warranted

Los Angeles. — W. R. MacKay, arrested here recently at the request of Canadian authorities for alleged illegal transportation of whisky across the Canada-United States border, has been released by the United States commissioner's office. The commissioner ruled that Canadian authorities had not established sufficient cause for extradition of MacKay. He was sought at Vancouver.

Prince Studying South Africa

Cape Town, South Africa. — Notwithstanding the fact that during his stay in Cape Town, the Prince of Wales is spending the winter of 1928 to complete holiday that he has enjoyed in years, he is devoting considerable time to increasing his knowledge of South Africa, her main interest and problems.

W. N. U. 1923

Great Future For Canada

Sir Esme Howard, Before To Dominion's Available Position

Ottawa. — A suggestion whereby Canadian trade may be enlarged with the West Indies, a tribute to Hon. Vincent Massey, Canadian minister at Washington, an expression of confidence in the future of this country were the features of an address delivered before the Canadian Club here by Sir Esme Howard, British ambassador to the United States.

With regard to the Canadian minister at Washington, the British ambassador said that from the day Mr. Massey was appointed to this post had never been a shadow of any sort between them.

"We have discussed matters of common interest and matters of all kinds so freely that we have become friends and almost as brothers. But should like to say this, that the establishment of the Canadian minister at Washington, so far from creating difficulties for the conduct of the affairs of our British Commonwealth, as some persons supposed, has on the contrary been a real help and assistance in the conduct of those affairs in the United States."

Expanding his theme on Anglo-American relations, Sir Esme pointed out to Canada's enviable position in having on its frontiers no hostile neighbor.

"Some of the advantages of this position," he said, "I don't feel so sure about that because it ensures you for ever from the danger of the problem of naked races, which is a most serious one in southern countries; and it ensures you freedom from the relaxation of mind and muscle which often is the result of too constant contact with the sun god. You are endowed with thousands and thousands of square miles of fertile plains, with millions of horsepower of electricity waiting to be harnessed, with lumber and wood pulp almost incalculable, and lastly with a wealth of mineral deposits which have yet only just been scratched. You have all this and you have also the unspeakable blessing of political security without fear from attack from without."

"You are your neighbors? On one side the North Pole, whose bears are not likely to prove a danger to its estate; and on the other side a great and friendly country, with whom you have had for over a century an arrangement by which armaments were laid aside and the frontier line was left almost as free from defenses as those between one state and another of the United States."

Authorities Firm On Mennonite Question

Canada Will Not Permit Entry During Winter Months

Ottawa, Ont. — The attitude of the Canadian authorities with regard to the admission into Canada of the 6,000 distressed Mennonites in Germany is unaltered, and no relaxation is on this being given to them in this country during the winter months. This was stated by officers of the immigration department here. In the opinion of the department, the giving consideration of the case of these Mennonites, but no special privileges will be extended to them. Any action taken will be in conformity with the immigration laws and will be governed by the agricultural requirements of Canada then.

Motorist Was Rewarded

Ottawa, Ont. — Wilfrid Lebel, young Ottawa motorist, brought a party of six to the Galt House Hotel here when their car broke down on Sunday. He was surprised when members of the party asked to be dropped off at Government House. He went home and forgot about it until he received a letter of thanks from Her Excellency Viscountess Willingdon, accompanied by a handsome bouquet.

Pictures Are Froot

Toronto. — Helga Borup, a young Dane, who in three years became a successful farmer in Northern Ontario, has left to spend a holiday in the land of his birth, and in his baggage will be 5,000 feet of film which he will show in many parts of Denmark as pictorial proof that splendid opportunities exist for those who are not afraid to play the part of pioneer.

To Speak Over Radio

London, England. — Lady Astor, Conservative member of the House of Commons, will broadcast over radio to Canada and the United States within about a week. Her address will be designed primarily for women and will urge them to continue their efforts for world peace.

Copy Was Clever Forgery

Expert Investigated So-Called Draft Of U.S. Declaration Of Independence

Toronto. — Faint pencil marks discovered by a hand-writing expert left no doubt that the so-called draft copy of the United States Declaration of Independence, now in Toronto, was a hoax, says the Mail and Empire in a news story.

"One of the cleverest forgeries ever committed," said the expert when he had completed his investigation. A powerful magnifying glass brought into evidence lead pencil markings about the strokes of the writing, says the paper. These markings indicated, the expert said, that the signature had been carefully drawn then inked in.

MAY EFFECT BIG REDUCTION IN NAVAL STRENGTH

London, Eng. — Rt. Hon. A. V. Alexander, first lord of the admiralty, told the House of Commons that Great Britain's cruiser strength in naval estimates for the next ten years would depend on the results of the Five-Power Naval conference.

"According to figures of decisions for the next two five-year periods of the naval estimates would result from fixing the number of cruisers at fifty," he replied. "There are at present 54 British cruisers built, and four others in an advanced stage of construction."

"The effect on the British estimates of fixing the total at fifty cruisers depends on the size of the cruisers and the type of the cruisers built to replace those that become obsolete."

"The decision on these questions depends on the conclusions of the naval conference." According to figures that Mr. Alexander gave to another questioner, the saving in the British naval estimates for the next six years would aggregate more than \$25,000,000, if replacements of battleships as provided in article 20 of the Washington Treaty were deferred until 1936.

Mr. Alexander also told a questioner that the decision as to proceeding with the three submarine remaining on the British 1929 naval program would be taken after the London conference had been concluded. The program originally provided for six submarines but three of these were later cut out.

The recent cancellation of two British cruisers was of no material significance, Mr. Alexander told a questioner who asked the reason for the abandonment and the effect of the decision on the unemployment situation.

"The suspension of work on these ships," he said, "was decided upon by the Government on July 1st, for reasons of high policy fully set out in a statement the prime minister made in the House of Commons, Jan. 14. As very little work had been done on these ships on that date the decision to cancel them was cancelled in the case of no material significance and was taken in connection with the framing of the navy estimates."

The first lord of the admiralty said it had not been necessary to reduce dockyard employment in consequence of stopping work on these and other ships.

WILL LEAD PROGRESSIVE GROUP

Manitoba Beekeepers Meet In Winnipeg

Delegates Discuss Betterment Of Conditions Which Are Already Excellent

Winnipeg. — Manitoba beekeepers in the 23rd annual convention at the Royal Alexandra Hotel, discussed ways and means of bettering the already excellent conditions under which this province holds a three-year record in the Dominion for first grade granulated and extracted honey.

The report of the secretary, L. T. Floyd, gives Manitoba's entire crop estimate at 8,899,339 pounds of honey, with an average of 144 pounds per colony. There are 2,556 apiaries and the spring and fall count of colonies rates at 47,595 and 42,728 respectively. W. D. Wright, of Souris, Manitoba, representing the district west and south of Brandon, from whence the finest grades come, was congratulated upon winning Dominion sweepstakes this year with practically all the prizes in the classes mentioned during the last three years.

Roy Mullen, of Myrtle, was another outstanding beekeeper, having obtained 26,000 pounds from 100 colonies of bees.

Father and Daughter Die From Burns Received In Fire

Kerrobert, Sask. — Burned terribly from neck to knees on both the front and the back of his body, through his heroic efforts to save his children, Lester Matters, Tramping Lake farmer, died in the Kerrobert hospital. He had been there for 24 hours, in intense pain.

His injuries were received when he was practicing driving his house following an early morning kerosene explosion, nine miles west of Tramping Lake. He and three children sustained burns in the explosion, one little girl, Nellie, aged 14 years, having succumbed to her injuries shortly after admittance to the hospital.

Successes Help For Byrd

New York, N.Y. — Dr. Howard T. Barnes of McGill University, has suggested that chemicals might be used to hasten the break-up of the South Polar ice pack if Admiral Byrd, professor of the work would be done.

Barnes said, by forcing one vital break in the pack at the key point and the manoeuvring an actual shifting of the ice mass.

"JAMAICA SUGAR"

They say that little girls are made of sugar and spice and all that's nice. This can truly be said of this little picanniny because she belongs to the West Indies, where spice and sugar grow. Perhaps she is a little shy because the lady who took such a fancy to her was a very distinguished visitor to her home island. Both Her Excellency Lady Willingdon, and the Viscount Willingdon, Governor-General of Canada, were highly delighted with their cruise through the Spanish Main. This photograph was taken on board the Canadian National Steamship "Lady Somers." — Canadian National Railways Photograph.

Canadian Scouts Contingent

Governor-General Willingdon Thanks All Those Who Helped To Make Jamhore a Success

Ottawa, Ont. — Success of the Canadian Scouts' contingent who took part in last year's Jamhore, in England, was due in large measure to the generous aid of Canadians, said the chief scout for Canada, His Excellency the Governor-General.

"To the generous subscribers in all parts of Canada to the special fund I personally raised for this purpose," said Viscount Willingdon, "I wish to express very grateful thanks, and also to the various individuals who subscribed sums for individual boys, which largely increased the numbers of our contingent. I wish to thank, too, all members of the executive of the association here at headquarters, for their loyal, devoted work, very particularly the members of the Jamhore committee, who, under the chairmanship of Colonel Shaw, made all the arrangements for this undertaking."

UNEMPLOYMENT ASSOCIATED WITH POOL POLICY

Winnipeg, Man. — The Canadian wheat pool's policy of holding wheat for higher prices has helped to create the serious unemployment situation as it exists in Canada, Mayor Ralph H. Webb, of Winnipeg, stated recently. His comment made at the western conference on unemployment from the presiding chair, drew pronounced opposition from several delegates.

"I have not attacked the wheat pool in any shape or form," continued Mr. Webb in answer to criticism of his stand. "I am commenting only on the pool's present policy which the pool has a perfect right to practice. I hope it proves to be right."

"Hundreds of thousands of men have been laid off by the railways as a result of the pool's holding policy," estimated the Winnipeg mayor in his first estimate of the unemployment problem. He mentioned that the facts that the 1928 crop was not yet paid for, and payments on the 1929 crop were yet to come, as additional items tending to cause unemployment.

Canada should turn an eye to the United States, where "holding policies" have been directed in vain against Great Britain, Mr. Webb believed. He mentioned that the failure of the United States to hold up Britain on beef, oil, cotton, rubber and tobacco, and resultant British moves to develop other resources.

Australia and the Argentine have quadrupled their wheat yields within nine and seven years, respectively, the mayor held; Manchuria was producing 24,000,000 bushels where no wheat was grown six years ago; India had doubled her wheat yield in six years. Italy and France, the former never a wheat-producing country, "were now meeting almost all domestic requirements," he said, "and Germany—ever an importer, was now exporting wheat to Britain."

Subsidized grain-growing, with 4,000,000 or 5,000,000 acres, put into new production in Britain, would be the result of "bucking the British, Mr. Webb forecast."

"We must demand that the government has had a lot to do with the present policy," stated Mr. Webb, referring to the wheat pool's stand, "and that may not be very close investigation."

Mayor John W. Hair, of Saskatoon, immediately dissociated himself from the "attack on the wheat pool made by Mayor Webb." He mentioned that Saskatoon is proud of being the centre of Canada's greatest pool province and mentioned that he considered the wheat pool had done far more to create employment than to cause unemployment.

Strong protest against Mayor Webb's statements came from Ben Lewis, of Stonewall, Man., a director of the United Farmers of Manitoba. "These co-operative organizations came into existence through force," stated Mr. Lewis. "The farmers refused to produce grain at a loss, and insisted on a living wage. It is because agriculture is in such a low state that the whole country is suffering. Politicians come out into the west, talking of prosperity, while the very causes of the prosperity — the farmers — are almost poverty stricken."

Almost unanimously, at the opening of a western "jobless party" called in Winnipeg, they stressed the gravity of present conditions, forecast early aggravation of the situation, and opined that the Dominion Government should aid in unemployment relief.

MOVE MADE TO CHECK UP ON STOCK BROKERS

Winnipeg. — Across the prairie has sounded repercussions of the arrest of 10 Toronto brokers on charges of conspiracy to defraud. In Manitoba, Alberta and British Columbia, developments occurred in the move to check up on brokerage house activities throughout the Dominion.

Manitoba took the most drastic action of the day in the West, attacking bank accounts of unnamed brokers and adding to the list of companies under survey by province-appointed auditors. Early in January, the Manitoba Government initiated an audit in the Winnipeg office of Stoble Forling-Matthews, Limited, and Soloway, Mills and Company, Ltd.

Voluntary action was taken, it was pointed out, because of the uncertainty which at present exists in the stock brokerage trade, and because at present there was no means of ascertaining the exact status of affairs.

Attorney-General W. J. Major, K.C., refused to name the firms whose bank accounts had been tied up at the order of the municipal and public utility commissions, and would not state into what new office auditors had been ordered. As yet, no action has been brought against any Winnipeg firm or branch by provincial authorities.

At Vancouver, following a special meeting of members of the Stock Exchange, an order was issued to Soloway-Mills and Company, Ltd., Stoble, Forling-Matthews, Ltd., to cease from trading on the local market.

Traders for Soloway-Mills were withdrawn by the company from the floor of the Calgary Stock Exchange. It was denied that any suspension had been ordered, and affirmed that the move had been voluntary.

Attorney-generals of the western provinces are unanimous in their willingness to co-operate toward joint action by various provinces of the Dominion looking to uniformity in legislation. British Columbia, Alberta and Manitoba, have agreed to attend a national conference when and if it is called. Saskatchewan, though in accord with the idea, will not be able to attend a party, owing to the coming session of the legislature.

At Calgary, Isaac W. Soloway and Harvey Mills, heads of the Soloway-Mills' company, in police court appear at preliminary hearings on five charges of fraud and conspiracy.

World Grain Show

Manitoba Agricultural Societies Urged To Take An Interest In Big Event

Winnipeg, Man. — An appeal to all agricultural societies to arrange at once for representation at the World Grain Show at Regina, in 1932, was made by J. H. Evans, deputy minister of agriculture for Manitoba, in an address before the agricultural societies convention recently.

Every society in Manitoba should be represented at the show, said Mr. Evans. He rejoiced at the interest manifested by junior seed growers in the production of better seed.

Endurance Test a Success

British Dirigible In Air For Fifty-Hour

Cardington, Eng. — The dirigible R-100 returned to her home port after a successful endurance flight lasting 53 hours.

The giant airship during that time flew a zigzag course over the southern part of England, crossed the channel to the Scilly Islands, flew back over Plymouth, the Isle of Wight, Dover, the Southeastern coast ports and once again over London.

She started in misty weather and arrived home in a mist.

B.C. Honors Pioneer Women

Victoria. — The legislature of British Columbia, in its opening ceremonies paid tribute to the pioneer women of the province, who had helped lay the foundations of Canada on the Pacific. A dozen pioneer women occupied seats on the floor of the House, and received tributes on behalf of those they represented, the government and opposition.

Another Royal Wedding

Vienna. — Dispatches from Bucharest say that the wedding of Princess Marie, daughter of Dowager Queen Maria, to Count Alexander, of Flessa, was fixed for this second half of February.

R. J. Dinning, liquor commissioner, is in town today.

Mrs. Hugh Cameron was a visitor from Burnis' on Monday.

Mrs. K. H. Westby, an old-timer of Fernie, died on Thursday afternoon last.

Strange thing that "fluke" goals have been experienced in Lethbridge only this season.

An old-timer of Frank in the person of Jack Watson, of Calgary, is shaking hands with his old friends in this district.

Eighteen years ago, many town and district schools in Alberta were paying their teachers around \$55 to \$75 per month.

All the able bodied in Scotland are taking up aviation, because they have just heard that every cloud has a silver lining.

A record of low temperature was experienced in Nova Scotia recently, when the thermometer registered 22 below zero.

Only about half a pound of radium has been produced in the world since Madame Curie discovered this precious element in 1892.

Corporal William D'Acres Bennett Munton has been appointed sheriff's bailiff at Fort Fitzgerald, in the judicial district of Edmonton.

Hillcrest juveniles will clash with the local juvenile aggregation at the Blairmore arena tomorrow night, the game to start at 7 o'clock.

Randolph Bruce, present lieutenant-governor of British Columbia, is suggested to succeed Hon. Peter C. Larkin as Canada's high commissioner in London.

Lucky for Jackie Oakes that he carried an extra club bag to Lethbridge with him. Jack's goals are so large and genuine that a club bag holds only one.

Ten prominent Toronto brokers were placed under arrest on Saturday last to face fraud charges. One has already pleaded guilty to a number of charges.

The regular monthly meeting of Crows' Nest Chapter, I.O.D.E., will be held at the home of Mrs. S. Patterson on Monday next, February the 10th, at 7:30 p.m.

When a little boy at the local school was asked to write a sentence using the word "deceit," he wrote, "I wear pants with patches on the seat."

A lately arrived Scot was seen during the cold spell in Calgary, walking down the street with his mouth open to an alarming width. When questioned, he said he had always heard that Alberta air had a nip in it and he wanted to get all there was.

The Welsh Imperial Singers demonstrate the last word in past singing. Practically all of their programme is rendered a cappella, and the combination of these male voices produces an ensemble of unbelievable beauty, at last a program for both discriminating humor, grace, charms and other indescribable qualities which bring pleasure to all. They always hold audiences spellbound during the entire concert.

We have been offered orders for counter check books during the past week that we are unable to accept. During the past month or two we have forwarded orders to the manufacturers, who in return for our good will refused to allow us one cent of commission. Here is an opportunity for the license department of our town council to get busy. Representatives of counter check book manufacturing concerns pay frequent visits to this territory and should be required to pay a stiff license for the privilege of undermining those who are paying heavy local taxes.

FURNISHED HOUSE FOR RENT.
Apply L. Dunkley, Phone 131.

Mrs. K. Crawford, of Medicine Hat, spent the week end here, with her brother Mr. D. R. McKay.

Jackie Oakes is the lightest senior hockey player in Alberta, and at that seldom ever misses the goal.

Provincial Oddfellows will meet in annual session at Calgary during the week of February 17 to 22.

The Black Crows' orchestra will supply music for the big dance to be held at Frank on Monday next.

There is no escape. At sixteen, spring causes love to afflict him. At sixty it makes his rheumatism worse.

Part of the town of Metchurch was destroyed by fire on Sunday last, including the post office and a grocery store.

Mr. Stanley, well known business man and all-round sport of High River, accompanied his team here on Monday.

Charles Evans Hughes has been named to succeed William Howard Taft as chief justice of the United States.

The engagement is announced of Battiste Serandi to Miss Calamazzo Macaroni, the marriage to take place between shaves.

In Coleman a few days ago we had the extreme pleasure of meeting King George, who is now chef at the Empire hotel.

The Saskatoon Star-Phoenix offers the helpful suggestion that the corporation of Chicago might bring bombs under the amusements tax.

Birch bark baskets are used by Indians at Pinche Lake, B. C., and other places in the western provinces, for storing frozen fish during the winter.

Because there were no penalties necessary at Lethbridge on Thursday night last, Bill Johnson now claims that cushions on the fence are not required.

The members of Viny Chapter, O.E.S., will hold a Novelty Valentine Tea in the Lodge Hall on Saturday, February the 15th. Watch for later announcements. —L.F.

George Fire, saxophone pupil of Altermatt, has been playing extra numbers with the Altermatt orchestra for the past three weeks at the Moose hall dances.

Bill Kerr, one of Bellevue's most enthusiastic curlers, made a straight eight-end at Bellevue the other night. We understand that his opposition was pretty strong at that.

Lethbridge failed to hold Blairmore down at hockey, by a mere margin. But that is the chance of sport, and should be taken in a sportsmanlike spirit without any feeling of disappointment.—Lethbridge Herald.

The mild weather of the past few days has greatly reduced the immense volume of snow. Roads are now open through this district and in good condition with exception of about four miles east from Bellevue. Teams and men, assisted by the caterpillar plow, have done good work over the slide and through Frank.

**Are You Paying Too Much
For Your Whistle?**

BENJAMIN FRANKLIN as a small boy was so eager to own a certain whistle that he gave all his pennies for it—and then found it wouldn't blow!

Just so, rich foods keep you poor—and then don't nourish. For your health's sake, cut down on them and eat

MOTHER'S BREAD

The loaf at once a luxury and an economy, makes you feel you are living like a prince—even when it cuts your food-bills.
